Press Release

Safety Power Inc. Expands to West Coast with Opening of Silicon Valley Office

San Jose, California, June 2, 2015 – Safety Power Inc. announced today it has expanded its operations to the Silicon Valley area with the opening of a new sales office in San Jose, CA. The Silicon Valley has a rich history of technology companies being very successful when either locating or starting here because of the immense talent in this area. There has been a lot of demand from current and prospective clients to expand Safety Power's presence coast-to-coast. The West coast sales office will help support the corporate growth initiatives while improving local customer satisfaction.

About Safety Power Inc. (SPI)

Safety Power is the leading manufacturer of emissions control systems for large diesel and natural gas engines. The technologies include Selective Catalytic Reduction (SCR) systems, oxidation catalyst, diesel particulate filters and silencing that can all be integrated into one cube shape named the [ecoCUBE®](#) product line. The [ecoCUBE®](#) product line has been successfully deployed in mission critical applications such as data centers, hospitals, banks, and municipal utilities applications. In addition to these areas, Safety Power markets to power generation (stand-by, demand-response, peak-shaving), combined heat and power (CHP), marine and industrial applications. Safety Power Inc. has offices in the USA and Canada. The headquarters is in Mississauga, Ontario.
