Press Release

Safety Power Inc. Receives ISO 9001:2008 Registration

Safety Power Inc. commitment to product quality, customer satisfaction and continuous improvement

San Jose, California, June 1, 2015 – Safety Power Inc. announced today that it has achieved ISO certification for “design, engineering, manufacturing, distribution and sales, project management, commissioning and after sales support and maintenance of large emissions control systems technology” used for diesel and natural gas engines. A core value of Safety Power is the high quality manufacture of emissions equipment that results in minimal maintenance and higher customer satisfaction. Safety Power strives to provide the most reliable, cost-effective, and easy to maintain Selective Catalytic Reduction (SCR) systems in the power generation industry.

About Safety Power Inc. (SPI)

Safety Power is the leading manufacturer of emissions control systems for large diesel and natural gas engines. The technologies include Selective Catalytic Reduction (SCR) systems, oxidation catalyst, diesel particulate filters and silencing that can all be integrated into one cube shape named the [ecoCUBE®](#) product line. The [ecoCUBE®](#) product line has been successfully deployed in mission critical applications such as data centers, hospitals, banks, and municipal utilities applications. In addition to these areas, Safety Power markets to power generation (stand-by, demand-response, peak-shaving), combined heat and power (CHP), marine and industrial applications. Safety Power Inc. has offices in the USA and Canada. The headquarters is in Mississauga, Ontario.
